

Included in the Precision Carving System:

- Precision Drum Sander
- Precision Barrel Carver
- Precision Ball Gouge
- Universal Base
- Spiral sanders 60 and 120 grit
- 2 x Allen keys

ARBORTECH™

Precision Carving System

The Precision Carving System is the latest power carving innovation from Arbortech. This 4 piece precision set will open the door to more intricate Arbortech power carving, detailing and texturing. It includes a Universal Base that when fitted to the Power Carving Unit or a quality M14 angle grinder, allows users to interchange the precision carving and sanding bits to carve smaller radii, intricate details and fine textures in wood.

PRECISION BALL GOUGE

Based on the popular Ball Gouge, this scaled down version enables users to shape smaller radii and get into even tighter spaces. Carve smooth hollows and dips on a smaller scale.

PRECISION BARREL CARVER

Controlled carving on the outside of the barrel can create right angle corners, and provides great access into tight spaces. The Precision Barrel Carver can be used on the side at an angle or upright to bore down into wood.

PRECISION DRUM SANDER

Finish where the Barrel Carver leaves off with the Drum Sander's high and low grit sanders. Ideal for finishing and polishing after carving with the Barrel Carver.

UNIVERSAL BASE

Engineered to fit the Power Carving Unit or any quality M14 angle grinder. This base will allow users to easily interchange the 3 different precision bits to the grinder, ultimately transforming their angle grinders into precision carving machines. The slim base design provides the precision bits with additional reach.
